Review of Operations

During the year under review, the company's sales and other income was Rs. 164.54 lakhs. Due to non-availability of raw fiber the order booking status was not as expected.

You are aware that BIFR issued a Sanctioned Scheme to the Company on 21.07.2010. As per the Sanctioned Scheme the Board of Directors had issued 1,54,32,700 equity shares of Rs.10 each to M/s. Telecommunications Consultants India Limited (TCIL), 42,47,500 equity shares of Rs.10 each to State Bank of India, 20,70,600 equity shares of Rs.10 each to Andhra Bank and 12,65,200 equity shares of Rs.10 each to Punjab National Bank by converting part of the loans into equity during 2010-11. The shares in physical format were issued on 14.09.2010. Out of the bridge loan of Rs.12.50 crores from TCIL as per the Sanctioned Scheme of BIFR, the Company had availed Rs.11.66 crores during 2010-11 towards OTS to consortium bankers and towards the Tamilnadu Government land in possession of the Company. With the above restructuring the net worth became positive during 2010-11. However from 2010-11 onwards, the desired results as projected in the Scheme couldn't be achieved due to OFC

market conditions. The OFC market from 2010-11 was not as projected and the order booking status was not encouraging. You are aware that the big order from BSNL during 2010-11 also could not materialize due to non availability of one of the critical Raw Material Nylon 12. Due to this, the Net worth again eroded during 2011-12 and became negative. The year under review was also not encouraging due to lack of required level of executable orders. Hence this has again resulted in accumulation of losses and thereby the Net worth has further eroded. Your Company is looking forward to achieve better results in future through the steps being taken.

Market Scenario and Outlook

The demand for optical fiber is growing at a rapid scale due to development of infrastructure under smart city project and digital India promoted by Govt. of India.

The Smart City Mission (SCM) of the Govt. of India plans to accommodate the massive urbanization that is expected in the future by modernising the existing mid-sized cities. According to former president of India Shri.APJ. Abdul Kalam, 400 million fiber KM infrastructures is required in order to realize the dream of digital India.

As per Government initiative for smart cities, development of trunk and internal infrastructure for 100 smart cities is planned which would require a large amount of requirement of optical fiber for seamless secure connectivity. The fiber optic network will run as a metro loop around the city and wireless access through the underlying fiber network will be provided by WiFi / RF Mesh/ Cellular/ Mobile technologies.

Electricity Companies also extensively use optical fiber cables for monitoring and control purposes. Some of the companies like Sterlite Technologies and ZTT have invested in setting up production of OPGW & ADSS cable which has bigger potential and demand in Indian market.

With the huge requirement, the demand for OFC is expected to surpass the current manufacturing facility. This favorable trend is expected to continue at least over the next few years. The company continues to take all initiatives to retain the competitive edge and be in a position to meet the requirements of the market. The medium / long-term prospects will augur well for the company. The company continues to emphasize on cost cutting through enhanced productivity, reduction in logistics and other costs. The company will continue its efforts to further prune all its fixed costs including administrative and discretionary overheads.

The present demand is mostly for Ribbon Type cable (5 lakh kms appox) for implementing Digital India Bharat Net Projects for which TTL does not have the requisite manufacturing machinery. Considering the huge requirement of Ribbon Type Optical Fiber cable, TTL promoters approved in principle to appoint a consultant for setting up a Greenfield project of manufacturing Ribbon Optical Fiber Cable (OFC) in the existing Optical Fiber cable Factory at Maraimalai Nagar,

TAMILNADU TELECOMMUNICATIONS LIMITED

Chennai, at a manufacturing capacity of 50,000 kilometre cable per annum with a investment of approx. Rs.125.45 cr (Rs.80.30 crs for CAPEX and Rs.45.45 Crs for OPEX). M/s.Fujikura, Japan, TTL's technology partner, is being negotiated to consider setting up a new plant on deferred payment basis, for production of Ribbon Optical Fibre Cable (OFC).

Efforts are being taken through TIDCO to get Tamilnadu Government support for getting sovereign guarantee and preferential orders to TTL.

Statements in the Directors' Report and Management Discussion & Analysis contain forward looking statements. Actual results, performances or achievements may vary materially from those expressed or implied, depending upon economic conditions, Government policies, subsequent developments and other incidental factors.

The market price of cables is also varying due to competition.

The Audit Committee periodically reviews the audit findings.

Since the Company is continuously incurring losses, no CSR policy has been devised.

In terms of Section 139 of the Companies Act, 2013, the Comptroller and Auditor General of India (CAG) had appointed M/s. Independent Auditor's Report

Clarification on Auditors observations is given below:

Basis for Qualified Opinion

9. a) **The Company has not recognised the following financial liability/asset at Fair Value in terms of IndAS 109 (including comparative figures as of 31st March 2017 and 1st April 2016):**
 - i) **Amounts due to: Fujikura Limited amounting to Rs. 1,89,65,590; and**
 - ii) **Trade Receivables (considered good) amounting to Rs.7,43,53,067.**

Qualified Opinion:

10. **In our opinion and to the best of our information and according to the explanations given to us, except for the effects of matter described in the Basis for Qualified Opinion paragraph above, the aforesaid Ind AS financial statements give the information required by the Act in the manner so required and**

TAMILNADU TELECOMMUNICATIONS LIMITED

give a true and fair view in conformity with the accounting principles generally accepted in India including the Ind AS, of the state of affairs (financial position) of the Company as at 31st March, 2018, and its Loss (financial performance including other comprehensive income), Cash flows and the changes in equity for the year ended on that date.

Emphasis of Matter

11. Without qualifying our conclusion in respect of this matter, we draw attention to:
- a) S. No-4–Note–28–Notes to Accounts. As at 31st March 2018, the Company's accumulated losses of Rs.142,74,51,007 (including a loss of Rs. 14,19,98,432 for the year under audit) has eroded the Net Worth of the Company, indicating the existence of material uncertainty that may cast a doubt about the Company's ability to continue as a Going Concern. Based on the mitigating factors and events occurring after the reporting period as detailed in the said note, the Management believes that the Going Concern assumption is appropriate.
- b) S.No 22–Note - 28 Notes to Accounts . The Company has not restated the amounts due to its holding company viz.,Telecommunications Consultants India Limited amounting to Rs. 97,17,45,550 at Fair value, but retained the same at its book value.

Company's Reply to para 11 a) regarding preparation of accounts based on going concern concept.

The requirement of OFC in the country is huge. The company is hoping to get continuous orders from 2018-19 regularly since the OFC market has picked up. Orders are expected from ITI Limited (PSU) since MOU was signed with ITI Limited (PSU) in the presence of Hon'ble Minister of Communication on 22nd February 2018 at New Delhi for contract manufacturing. Efforts are being made to obtain Preferential orders from Tamilnadu Arasu Cable TV Corporation, State PSU, for supplying Optical Fiber Cable in Tamilnadu. Therefore, the order booking position is expected to be good in the near future. Presently the company has Rupees Seven crores value of orders in hand to be executed in 2018-19. Considering the likely orders in the immediate future and with the promoters financial support, the accounts have been prepared on Going Concern Basis.

Company's Reply to para 9 a) (i) (ii), 10 and 11 (b) regarding retaining certain financial liability/asset at book value, instead of at fair value.

In the para 9 (i) and (ii), 11 (b) of independent auditor's report, it is qualified/emphasised that the specified financial assets and financial liabilities are not complied in terms of Ind As 109 by not measuring at its fair value plus or minus transaction cost that are directly attributable to the said assets / liability.

As mentioned in our financials, TTL is regularly borrowing from the holding company TCIL for its raw material support and working capital support for running day to day operations. The balances of current liabilities and trade payable pertaining to related party / the holding company TCIL as on 31/03/2018 are given below:

(i) Current liabilities – short term borrowing	
(a) Bridge Loan	: Rs. 11,65,73,000
(b) Working capital support loan	: Rs. 12,42,76,617
(ii) Trade payable – Sundry creditors for raw material support	: Rs. 68,90,15,932
(iii) Other current liabilities – interest accrued	: Rs. 4,18,80,000

Amounts due to Fujikura Limited amounting to Rs. 1,89,65,590;

Trade Receivables (considered good) amounting to Rs. 7,43,53,067.

This is to state that the above items are reviewed and monitored on day to day basis in both TTL and TCIL. The balances are periodically reconciled with TCIL and also approved by board of directors of TTL.

It may not be out of place to mention that all the realizations from TTL clients are routed through Escrow account which is auto credited to TCIL's Account for which standing instructions have been given to bank. Moreover, charge has been created in favour of TCIL against fixed assets and current assets of TTL for all the TCIL loans, advances and liabilities towards raw material supply. The loans are repayable on demand basis.

Ind AS 109 requires all financial assets/liabilities to be recognised initially at fair value and subsequently at amortised cost if it satisfies the criteria with reference to Ind As 32 Para 11 and para 4.2.1 of Ind As 109. Since these financial assets/liabilities are current in nature, there is immaterial finance cost/income involved, therefore, as a general practice, demand deposits are carried at cost and not at fair value/amortised cost.

In view of the commitment to pay to TCIL, the holding company / related party on demand basis, and the company is taking a conservative approach, management assume book value of current liabilities at a amortised cost i.e instead to book profit by discounting liabilities the company prefers to go and disclose liabilities with full amount under law of prudence.

Cost Auditors:

As per the provisions of the Companies (Cost Records and Audit) Rules, 2014, the operation of the company is not falling within the scope of cost audit. Hence cost auditor was not appointed for the financial year 2017-18.

4. After restructuring as per the Sanctioned Scheme of erstwhile BIFR during 2010-11, the net worth of the Company was positive during 2010-11. However, during the year 2011-12 the net worth has again eroded. The Company was under rehabilitation period as per the erstwhile BIFR Sanctioned Scheme. Lack of executable orders and dull phase of Optical Fiber Cable (OFC) market from the year 2010-11 onwards is the reason for the poor performance.

During the year 2012-13 the Company had received order from BSNL for supply of 3206 KMs of OFC valuing Rs.15,97,011 and successfully executed the order in time and got 50% add-on order of 1602 KMs and executed during 2013-14 valuing Rs.7,98,007. These two were the only major orders executed during these two years.

Bharat Broadband Network Limited (BBNL), the Special Purpose Vehicle of the Government, had floated the tender towards the National Optic Fiber Network (NOFN) project to connect all the villages by broad band. The date of tender opening was 08.05.2013. Though the initial projection was 600000 KMs, the tender called for is to cover 404995 KMs under six packages based on geographical location. For this huge quantum, BBNL has fixed the delivery time frame of eight months only including initial two months for preliminary arrangements. The Company has participated in one package considering its production capacity to cover the quantum in the given short delivery period. The Company has received APO and given acceptance during February, 2014 for 5800 KMs including accessories. The Value of the APO is Rs. 31,90,444. BBNL has proposed to issue PO in two phases of 50% each. During April,2014, BBNL has issued the first 50% PO for 2900 KMs including accessories valuing Rs. 1,595,273. Delivery period was upto October, 2014. BBNL has issued the consignee details in full periodically for four months consignments of 1740 KMs only. For fifth month consignment, consignee details were provided for only 48 KMs out of 580 KMs. Hence consignee details are not provided for balance around 1112 KMs. BBNL has extended the delivery schedule by another six months beyond October,2014. Hence the supply of balance around 1112 KMs and second 50% PO for 2900 KMs was anticipated during 2016-17and 2017-18 for execution. However, BBNL did not decide on the consignees and no supply could, therefore, be made in 2016-17and 2017-18 also.

The Company has participated in the tender floated by BSNL for supply of 24,000 KMs of 24F HDPE DS OFC. The technical bid opened and the company has been technically qualified. Financial bid opened on 21.5.2015 which was followed by e reverse auction but TTL could not compete in the e-reverse auction. The requirement of OFC in the country is huge; however the delay in procurement is due to various procedural matters / issues in execution of big projects by the Government Clients.

The Company is hoping to get continuous orders since the OFC market is picking up.At present railway orders in hand as on 31.03.2018 to be executed within 3 to 4 months works out to Rs.7,00,000. The order booking position is expected to improve in future as there is huge requirement of OF cable for Tamilnadu Arasu Cable TV Corporation Limited (TACTV) for implementing BharatNet a scheme for making broadband connectivity available in rural areas of Tamilnadu. The company and the promoters of the company are taking various efforts for revival of the company as detailed below:

- i. MOU was signed with ITI Limited (PSU) in the presence of Hon'ble Minister of Communication during the synergy meeting held on 22nd February 2018 at New Delhi for contract manufacturing.
- ii. The proposal of taking over the company by BSNL has been initiated. The Consultant appointed by the BSNL has submitted due diligence report after vetting the documents of the company.

- vi. Efforts are being made to carry out major repair / upgradation of plant and machineries in order to make the existing plant more operational.
- vii. TCIL management is taking efforts to revive TTL and a letter from Secretary, Telecom has been forwarded to Chief Secretary, Govt. of Tamilnadu in this regard.
- viii. Since TTL has 5.51 acres of vacant land which can only be used for telecom related industrial purpose, efforts are being taken to utilize vacant land by venturing into other areas by way of Joint Venture with public / private partners.

Considering the scope during the immediate future and TCIL's financial support the accounts have been prepared on going concern basis.

The Company is following up with SBI, in this regard.
 - b) The Company is also in possession of 7.36 acres of free hold land of the Tamilnadu State Government. The cost of land determined by the Government in 2010 was paid by the Company.
